

US EXT JOINT NON VASC COMPLETE RIGHT

Kasperek, Travis

MRN: 10756263, Sex Assigned at Birth: Male, 5/27/1969 (56 yrs)

Accession #: 900US263021892

Final Result

Ultrasound Examination

Using a portable ultrasound unit with a linear musculoskeletal probe, the structures about the right knee were visualized in both long and short axes. No effusion is noted in the knee. There is no significant bursal effusion. Patellar tendon shows a normal fibrillar pattern and glides normally. No definite cutaneous or subcutaneous abnormalities are noted in the area of greatest tenderness. Permanent images were retained and sent to the PACS system.
